03

Innovation & Growth

Jendie continuously strives to develop creative solutions to meet the evolving demands of the market.

04

Integrity & Accountability

Jendie operates with ethical practices, transparency, and responsibility in all operations.

A Brief Story About The Company

ABOUT US

Speed Governors

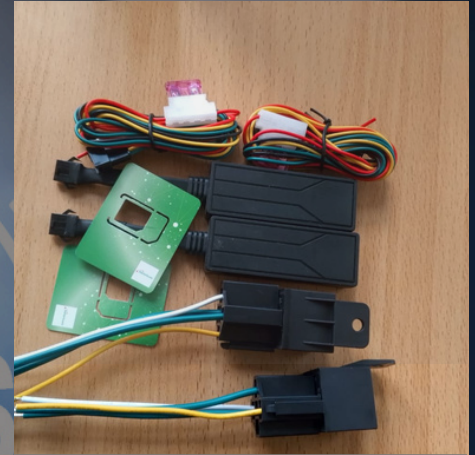

Jendie Automobiles is a Pan-African company that aims to advance the use of technology and the Internet of Things (IoT) in our daily lives. Jendie connects gadgets and individuals at the click of a button with our progressive systems and applications. Our mission is to enhance the well-being of individuals and communities.

We have partnered with the Land Transport Regulatory Authority of Tanzania (LATRA) and the Government of Tanzania to improve road safety using technology. Our devices vary in use and purpose, providing tailored solutions for different needs. With LATRA, we aim to install Vehicle Tracking Systems (VTS) and Vehicle Tracking Devices (VTD) to monitor and regulate drivers of both Passenger Service Vehicles (PSV) and Goods Carrying Vehicles (GCV).

BENEFITS OF VTS/VTD

Vehicle Tracking Device

BENEFITS

- **Monitoring:** Track the movements of your vehicle from point A to point B.
- **Driver Behaviour:** Monitor the driver's activities and reduce unauthorized use with fingerprint technology.
- **Compliance:** Comply with authorities as it is mandatory to have these gadgets.
- **Accident Reporting:** The device reports accidents for faster response times.
- **Speeding:** Detect and report speeding to relevant authorities and vehicle owners.
- **Device Tampering:** Report any tampering activities and send alerts when the device is tampered with.
- **Fuel Data and Panic Button:** Report fuel consumption per trip and alert when passengers are in trouble using the panic button.

PRODUCTS & SERVICES
